

Co-Workers On The MOVE!

Jason Zeides

Jason chose to go into pharmacy mainly after experiencing this type of field when he interned at PCA Pharmacy his junior year of college in 2018. Before working at PCA Pharmacy Jason had been working at the Columbus Zoo and Aquarium as a warehouse worker. There were a lot of times when delivering toys and merchandise where he got to interact with a wide variety of animals and feed some of them, which was really cool to do.

Jason first interned for PCA Pharmacy in 2018 for 3 months. A couple years went by and he had reached back out to the Vice President of Finance, Brian Smith, just to see how things were going. This conversation led to the opening of a position for Jason. By this time, he had been in his senior year of college at Ohio Wesleyan University getting his Bachelors in Accounting.

Jason's first position held at PCA Pharmacy was a dual role of AP Specialist and Staff Accountant. His current position is technically Staff Accountant. However, he is still aiding in Accounts Payable, due to employee turnover and the transition of hiring others in the Accounting Department. He received his promotion on April 14, 2021.

No certain person has affected his career growth but rather his family and friends. They are the ones that have pushed him to get his Masters and CPA, as they have full faith in him and what he can achieve in his life. They are always there for Jason and want him to succeed in everything he does!

Jason began his career at PCA Pharmacy in Accounting. Jason has gotten experience and will continue to get accounting experience to further his career. Jason's future goal is to get his Masters in Accounting and get his CPA. Along with this, he wants to start a family, have kids and pets. At some point in the future, Jason would like to move back to Ohio around the Columbus area, as all of his family and friends live there. "It would be nice to stay in close contact to the people that have meant so much to him!"

What Jason likes most about PCA Pharmacy is the culture and environment at PCA. Jason loves his team as he has grown closer to them, as well as getting more used to what is expected of him and what he can provide for the company based on his educational background.

Balancing his career at PCA Pharmacy and his family has been a work in progress ever since he started. Jason has gotten better at doing what needs to be done daily every month, while understanding life isn't all just about work but rather spending time with family. Spending time with family is a good way to relax and to cherish what he has in his life besides work.

Co-Workers On The MOVE!

Jason Zeides

Jason likes to play games (cards, board, video games), spend time with his wife, they got married in November of 2020! He also cross stitches every now and then, as well as do crossword and puzzle books.

It's been a little rough for Jason to adapt fully to being a Kentucky resident and experiencing certain things around the Louisville area. Jason and his wife moved to Kentucky for his job in January 2020 and then COVID hit in March. Since then he has moved into another apartment in Shelbyville, KY and has slowly been able to experience downtown activities and other fun things around the area.

Jason grew up in a small town in Lexington, OH and had gone to Lexington Local Schools all the way through high school. From there, he got recruited/accepted to Ohio Wesleyan University to play football. Jason attended this school for all four years and graduated with his Bachelors in Accounting.

Jason currently hasn't achieved any special licenses or credentials. However, he has been wanting and looking into continuing his education and getting his Masters in Accounting, along with getting his CPA.

***Jason's advice to his team mates would be, "To never give up on your goals and push yourself to achieve success in whatever you do!
Do your job to the best of your ability and never give up!"***

Quotes about Jason!

"Jason was promoted due to his hard work and dedication that he brings day in and day out to PCA. Jason is not only a great employee, but a great person. He is always willing to take on new tasks. Jason was a great candidate due to always being willing assist others."

Tommy Wright, Accounting Manager

"Jason started at PCA as an Accounting Intern in between his Junior and Senior years of College. He finished with his Bachelors in Accounting, and came back to the PCA team as an Accounting Specialist working in a hybrid AP/Accounting role. Jason has most recently been promoted to a Staff Accountant. His success is due to his team first attitude, and his willingness to always due what is needed to help the team. Jason is quiet but has a good sense of humor. He is also very kind, and an example was he brought back little travel gifts from his honeymoon with his wife. Jason's work on the financial review templates that get sent to the ED's each month, along with his willingness to work extra during month end close for Accounting/AP duties have been his two biggest accomplishments. Jason was a great candidate because he bought into the PCA culture of serving/helping other, and team work."

Brian Smith, Vice President of Fiance
